

Statement of Understanding for NLCS Athletic Department Fieldtrips, Tournaments and Overnights

Throughout the course of the school year there may be events which take place off-campus without the presence of a New Life Christian School staff member. These may include overnight stays in which students will need scheduled or as-needed medications. Parents need to be aware that the Maryland State COMAR Regulations for medication administration do not address after hours, off-campus events.

As such, the NLCS Health Room staff will **not** take responsibility for the administration of medications during these events. The parent will need to make their own arrangements with the volunteer team Coach for medication administration. For the safety of the rest of the students present, no student may carry medication as stated in section 6.8 of the Student handbook.

Please sign this document to acknowledge your awareness of the policy stated above.
